

The Diary of a Slave Locked in Chastity by Domina Elle for 24 Days

CHATITY REPORT 5/14/09: DAY 1

Tonight is my first night under lock and key. And guess who has the keys?

Elle is going to sexually, erotically, and psychologically dominate me with this technique, and I think I AM GOING TO LOVE IT.

I took some pics of the device on and it looks really bizarre. Well, it feels kinky and stimulating as hell too.

Talk about learning who's boss!

CHASTITY REPORT 5/15/09: DAY 2

I woke locked up tight and that's how I went to bed. I was released for an intense videotaped play session early in the evening, then locked up again after a monumental beating and tag-team strap-on fucking by Domina Elle and Fetish Dolly this evening.

After I suffered prodigiously during the beating, I was then was fucked down the throat and up my ass for a good long time, sometimes both at the same time. Elle and Dolly seemed to genuinely get off on this – they were smiling and laughing and joking the whole time, making me beg to suck and be fucked and having to confess how much I loved it and wanted more. They were in top-space already from the very vigorous 90-minute beating and feeling very generous, I think. They had pity on me and they said I could beg them for the privilege of masturbating at their feet.

I begged desperately and was allowed to frig myself. But when I was on my knees jacking off in front of Elle and Dolly, I was having some trouble getting it done – perhaps due to the severity of the beating.

Elle warned me that I'd better hurry up and squirt, because if I didn't pretty soon she was going to stop wasting their time waiting on me and she would lock me back up without me having an orgasm.

That made me desperate to cum and I jacked myself furiously. To help. Elle started squeezing and twisting my nuts and Dolly worked her latex-gloved fingers in and out of my ass. I finally started bucking and moaning uncontrollably. Within moments, I had filled my hand with a big puddle of spooze, which they made me slurp up immediately. I was a very grateful slut.

I think that today still does count as a day of chastity, even though two hours of play and allowed an orgasm. After which, Elle promptly locked me back in the diabolical device.

As Elle was locking me back up she ominously informed me that I has better have enjoyed that orgasm it because it was going to be a long time before I would get to have another one.

CHASTITY REORT 5/18/09: DAY 5

I love my device. Why? Because it is a tangible sign and a constant reminder that I am under Elles' authority! (where i belong)

CHASTITY REPORT 5/26/09: DAY 13

The 'Curve' device now seems to be properly fitted (after three adjustments) and I am not feeling much discomfort.

Mostly just the delicious sensations of erotic captivity and constant stimulation of my genitals.

I woke up this morning just before the alarm clock went off. This was because my semi-erect cock and engorged balls were straining against the device. This was only mildly painful and it went away as soon as I got up and moved around. My semi-hard cock shrank down, lessening the pressure on my balls.

Today I took a 45 minute walk for lunch. Throughout the walk, whenever I took a step, my thighs pushed the device a bit which rubbed my cock and balls. So every time I took a step, I got a direct massage-like stimulation from the greased up plastic apparatus moving back on forth on my genitals. It was quite an interesting walk. I came back horny.

I am reminded of my intimate bondage predicament whenever I go pee. I have to sit down like a girl. This is very emasculating.

I have literally and figuratively lost touch with my cock. It's like it doesn't exist any more. In its place is this strange plastic device between my legs, from which erotic sensations persistently emanate.

Another time that really gets me is when I have to shit. The anal sensations from defecating and wiping my ass seem to be sufficient to stimulate my prostate so that it discharges a fair amount of clear pre-cum which drips from the head of my penis and out through the Curve. So every time I take a shit, it is a major erotic event for me.

This is indeed, THE most intimate form of bondage. To be in it 24/7 is devastatingly effective.

I am thinking about Mistress all of the time because she is my keyholder and I know she is enjoying putting me through this process. (Wherever it may be leading - only she knows).

Of course, I am desperate for attention, to be unlocked, and have orgasmic release. But I would not think of asking Mistress for any such thing. To do so would be an insult. She has made it clear that I am to simply grin and bear it, enjoy the process, let go of any expectations about sexual release and trust her for the outcomes. This I will gladly and gratefully do.

CHASTITY REPORT 5/27/09: DAY 14

Elle told me today that I should email her a Chastity Report everyday on what I am experiencing and feeling. I am to be sure to include the fantasies I have been having. She said it would help her to know how I am progressing in the process. Well, here are the fantasies I have been having lately. I don't know to what extent these have been influenced by my chastity predicament, but obviously, I have been thinking about some pretty kinky things.

1. I would like to be mummified with an electric butt plug up my ass and the chastity device on. Then have the plastic cut away, the Curve removed, and electro-stim equipment put on my cock on balls. I would then like to be forced to have an involuntary orgasm via the electro-stim while mummified and bound tightly on the table.
2. I would like to be forced to continue to wear the device, but be subject to regular prostate milking, so that all of my sex fluids (except sperm) are drained from me involuntarily. Then I would gratefully drink my fluids.
3. I would like to be trained to take larger and larger implements up my ass, until I am easily accommodating things that are 3" in diameter or larger (like Mistress' fist)
4. I would like to be unlocked and fisted by Mistress' big hands, once my asshole is properly stretched, then have her jack me off with her slippery lubed-up hands.
5. I would love to be tied down with my legs in the air and have Mistress fuck my ass with that big purple strap of hers on while massaging my dick with her lubricated hands until I squirt.
6. I want to start drinking Mistress's pee.
7. I want to look at, smell, lick, and worship Mistress' asshole with my tongue. I want to experience it with all my senses. I want to be her personal asshole whore.

My sensual chastity predicament and this erotic bondage is always on my mind. I believe it is having a profound psychological impact on me. I have never thought so much about a Mistress and so desperately wanted to please her, as much as I want to please Domina Elle now that she has this power over me.

My beautiful Domina Elle is emerging as the focal point for my existence. I feel that I am becoming increasingly psychologically dependent on her. Contact with her seems vitally important and gaining her recognition and approval is of the utmost importance to me. I SIMPLY MUST PLEASE THIS WOMAN!

I AM A DESPERATE MAN WHO IS DESTINED TO OBEY. THERE IS NO OTHER WAY FOR ME TO GO. SHE HAS GOT ME AND SHE'S GOT ME GOOD.

I AM COMPLETELY UNDER HER POWER AND I AM LOVING THIS. I WANT HER TO TAKE ME OVER COMPLETELY, GIVE ME THE FULL TREATMENT, TRAIN ME. AND TRANSFORM ME. I WANT A NEW LIFE AS HER TOTAL SLUT.

I am not going to ask for this device to be removed, or that I be giving a reward. I've done nothing to deserve a reward.

After all, I'm the one who is getting all the erotic delight in this situation. I am grateful for that, and the fact that Mistress cares enough about me to chastise me and use this technique as a powerful lever to increase the effectiveness of the training she has planned for me. I can't wait to find out what she has in store for me next. I hope she makes me suck cock (or many cocks) as part of my humiliation and training.

I asked Mistress last night what her grand vision was for me as a result of this process. She politely declined to explain it. She said that wants me to have the excitement and uncertainty of not knowing what is going to happen to me or what I am going to become.

I accept this, and so I will not ask such a question again. I trust my wonderful Domina Elle with it all: my cock, my balls, my ass, my personality, my well-being, my psychological and emotional health, and my life. She has convinced me that she is worthy of that trust.

I AM HER BITCH TO DO WITH WHATEVER SHE PLEASES. RIGHT NOW SHE WANTS ME IN THIS DEVICE, EXPERIENCING THIS. SO BE IT!

CHASTITY REPORT 5/28/09: DAY 15

Dear Mistress,

As you know, I had a problem with circulation in my scrotum and had to remove the device at about 10 am.

You'll be happy to know that your cock and balls are now back where they belong: under lock and key in the Curve chastity device:

I will give you the keys as soon as I can, or mail them to you.

I have increased the ring size by one increment and added one spacer. Hopefully this will be a good fit for me.

I wanted to get back in chastity for you as soon as I could. I love being under your erotic control, with you having my genitals in bondage.

I noticed that while my cock was out for about 8 hours today, it was slightly tumescent most of the time and feeling very horny. When I put it back in the plastic shaft tonight, I had to force it in with lots of lube because it was almost too big to go in there.

Even though I was out of the device for a few hours today, I consider this to be day 15 of my chastisement.

The fantasy that I had today was of being on my knees drinking your piss straight from your pussy, then you putting me on the table, removing the device, and jacking me off while sitting on my face. What a pleasant thought!

CHASTITY REPORT 5/29/09: Day 16

What I did today is definitely a no-no while wearing a chastity cage.

It's casual day at work, so I am wearing a pair of jeans. These area bit tight and not as roomy as the Dockers I usually wear.

The extra tension on the device from the pants is wicked. So I am truly "working under pressure" today!

Please remind me not to do this again...

HOT COCK AND BALLS LOCKED IN AN EROTIC PREDICAMENT

CHASTITY REPORT 5/30/09: DAY 17

It's pure and simple: **this is titillating and exquisite psycho-sexual torture of the body, mind, and spirit.**

CHASTITY REPORT 6/1/09: Day 19

After 19 days in the Curve chastity cage, I have kind of gotten used to it. I think we finally got the fit right, after about four tries.

It stimulates my cock and balls all the time. Plus it make me horny knowing that Mistress knows what I am going through.

For example, I was walking down a long hallway to take out the trash this evening, and the thing was rubbing my balls and the tip of my cock to the point where I thought I was going come up, from just walking down the hall. Of course, I didn't. It only feels like you are on the verge of coming several times a day. But you never do.

My fantasies today was to be encased/mummified in plastic shrink wrap, laid on a table, and have an opening cut to allow my cock and balls out which would stand at attention . A hole would also be cut for my nose and mouth. Then Elle would hump my dick and ride my lie a bicycle when I am immobilized, with Susanne face sitting and smothering me. Every time I come close to coming I have to tell Mistress and she stops stimulating,.

Being brought to the brink a number times, and denied, I would finally be ordered too shoot a big load which would be caught on video. The Dommies would of course spoon up my mess and feed it to me while I am immobilized.

CHASTITY REPORT 6/2/09: DAY 20

Dear Mistress:

This has now progressed to where I am beyond horny. I don't know how to describe what I am feeling right now, because I have never experienced anything like this. Perhaps with your experience, you have some insight into the phenomena I am experiencing.

Would you please take a minute and tell me what you expect I would be experiencing at this point? That would really turn me on, would be to hear your vision of what this should be like - what it would like ideally!

I have been having fantasies about being in front of you and other women, on my knees, masturbating and shooting a huge load onto your boots. Then lovingly licking it off, and polishing you boots with my tongue,.

I also have had a persistent fantasy about you binding/immobilizing me and fisting me. I can think of nothing more intimate and more dramatic for a power exchange than being fisted my Mistress. I imagine that I would cum from being fisted, without touching my cock, which could be left in the device. Alternately I imagine you fisting me and stroking me off to an explosive orgasm.

I dream of having a full erection again someday...

CHASTITY REPORT FOR 6/3/09: DAY 21

Yesterday, I took two walks: one at lunch and one in the evening up in the hills. Both walks had the effect of stimulating me, due to the slight rubbing movements on my genitals as my moving thighs push the device back and forth.

Went to bed feeling horny. But overall, I am getting used to the feel of the device and it is not as distracting as when I first started wearing it. At first, I was acutely aware EVERY MINUTE of the fact that my cock and balls were in erotic, intimate bondage. Now, I only think about it every few minutes!

My fantasies yesterday were about what Mistress might do with me, (or to me) tonight when I go to visit her at the dungeon at 7 pm, and how I will serve her to make her happy. It is her happiness and satisfaction that matters, not mine.

Will I be beaten and sent away with no reward? Will I be released and will she somehow stimulate my cock? Will we have a ritual where I learn how to drink her piss straight from her pussy and learn lick her the way she wants to be licked? Will I be allowed the privilege of having an orgasm? Does she think I have earned a reward?

I just don't know. It is all up to Mistress. She what's best for me at this stage of my training. I will gratefully accept whatever she decides to do with me. I am her property, and lucky to be so.

I AM LOOKING FORWARD TO TONIGHT!

I LOVE MY MISTRESS AND AM GRATEFUL THAT SHE IS IN MY LIFE GIVING ME THIS TRAINING AND THESE EXPERIENCES SO THAT I CAN BE A BETTER SLAVE.

I NEED HER, I WANT HER, AND I WANT HER TO HAVE THE BEST OF ME.

CHASTITY REPORT FOR 6/4/09: DAY 22

Dear Mistress,

What a marvelous session you bestowed on me this evening. Than you! I know it is hard work to lay on a good beating and I'd bet that tonight was one of the most severe you've ever given, or that I have ever received. The marks on my body do not lie:

I have asked Jenika to stop by to take pics of the carnage you have wreaked on my body. It is worth recording for posterity. Of course, I loved it. And I love the fact that I am the only man who you have been able to beat this hard. I am proud to be your number one pain slut of all time.

Also, I am very proud of you - how beautiful and sexy you looked tonight. Hot Damn, you definitely turn my crank!

I also loved it when you pranced around during the session, got totally energized and happy, and went off into your exuberant, unstoppable sadistic mode. I love to see you teeing off with both hands, hitting as hard as you can, and trying to hit my butt out of the ball park!

You are very strong and experienced. You took me to very near my limit several times tonight.

What I want to report on is how horny I got seeing your beautiful ass and pussy throughout the session, having your shoot your hot piss straight down my throat, and rimming you for a long time while you had a super orgasm. Major, major turn ons for me.... My cock was straining against the device many times tonight.

But I am still caged. And what this wonderful activity tonight did was stimulate my already over-stimulated cock and balls. (Beating makes me horny too, (and I know it makes your pussy wet.)

I am pretty much a super-eroticized basket case at this point.

You should be proud of your work, because you are the one who is engineering what is happening to me. I told a buddy tonight that I am willing to hang in there and go with whatever it is you would have me experience. I don't know what to expect, but I know this: being chastised by you has so far has been the most continuously erotic and exciting kinky experience of my life.

Your rewards for me tonight were fabulous. I am most grateful for the privileges you bestowed on my tonight, and of course, being the insatiable slut that I am, I want more.

Thank you again for the gift of this wonderful session!

DOMINA ELLE, YOU RULE. AND YOU RULE ME FOR SURE.

I am your grateful ass-licking whore. I love you.

CHASTITY REPORT FOR 6/5/09: DAY 23

Today for the first time since being locked up 23 days ago, I have been having overpowering urges to reach down and stroke myself and masturbate. But of course, I can't. My cock and balls are locked in a very sensuous, close-fitting chastity device.

Since being locked up, I have had major episodes of kinky play that have been turning me on, progressively more and more. There have been two corporal punishment sessions (one public, one private), several instances of licking my Mistress' pussy, and just last night rimming her asshole while she brought herself off with her Hitachi. This incredible experience lasted about ten minutes, and she ended up with what seemed like a shattering orgasm. Last night she also squirted her hot pee down my throat for the first time, straight from her lovely pussy.

And of course, for the past three weeks, I have been around my ever-so-hot Mistress when she is dressed in latex preparing for a session, or undressing, or just generally being her sexy self.

I am now thoroughly stimulated. And I am locked up tight. What an incredible experience. Talk about physical, erotic, emotional, and psychological domination--this it baby!

I am now totally Elles, she is the focal point of my life, and my life is all about serving her. Just liked she planned, I'm sure, when she first decided to chastise me and make me her own. I am now deeply impressed with the fact that I am her property, just like our slave contract says. What she says, goes. Period.

I love being dominated like this, I love this process, and I love my magnificent and uncommonly wise Mistress. She alone knows how to handle me. No one has ever been able to do it before. But now I am putty in her hands. I wonder what she is going to make of me?

CHASTITY REPORT 6/06/09: DAY 24

At a dinner and play party tonight, Elle unceremoniously unlocked me and stripped off the device, ordered me to impale and fuck myself on a 38 inch fuckpole, and jack myself off for everyone at the party. I obediently did so did so and ate my own cum in front of everybody. This made me pretty happy.

FREEDOM REPORT 6/10/09:

I am still free and unfettered. But yesterday, Elle told me that I had better enjoy it while it lasts. Soon she's going to lock me up again, several days in advance of a hot session with transvestite client named Stacy who is very excited about sucking a real cock that squirts. Elle is locking me up because she wants me to be super horny when I get sucked. I am expected to shoot a big load for Stacy.

I am looking forward to this!
